DuPont ISCEON MO99 Refrigerant

Recognized as the global leader in R-22 Replacement

- A1 refrigerant safety classification (ASHRAE Standard 34 – nonflammable, low toxicity)
- UL certified (nonflammable as formulated and under worst case leak fractionation conditions)
- US EPA SNAP listed
- Used in thousands of retrofits worldwide over the past 4 years
- MO99™ can be topped off repeatedly with MO99™ with no change in flammability rating
- No oil change required*
- Lowest total cost retrofit option for replacing R-22
- No TXV, line set or component changes*
- Performance (capacity, efficiency) most similar to R-22 of any no oil change replacement refrigerant.
- The “One Gas” R-22 replacement solution for use in high, medium and low temperature systems
- Selected by many leading US Supermarkets as a low and medium temperature R-22 replacement
- Emerson approved for use in Copeland® DISCUS® compressors
- **Product is readily available here at SWH Supply. Call for Pricing!**
